## BEAVERS

**Presented by Brock Dolman & Kate Lundquist**  
Co-Directors at Occidental Arts & Ecology Center's  
WATER Institute  
[www.OAEC.org/water](http://www.OAEC.org/water)

Come learn about the fascinating history and ecology of beavers, and how they are helping both urban and rural communities across California restore watersheds, recover endangered species, and increase climate change resiliency. Brock Dolman and Kate Lundquist, Co-Directors of the Occidental Arts & Ecology Center WATER Institute, will share research done on the historic range of beaver in California and how you can contribute to the Bring Back the Beaver Campaign.

**COMING SOON!**
